Career Objective

I am a diligent, resilient and adaptable Women in Engineering and IT Co-op scholar studying Bachelor of Engineering (Honours) (Software) and Diploma of Professional Engineering Practice at UTS. I've had hands-on experience in software development, cloud infrastructure, data flows and Agile methodologies gained through internships at ASX, CBA, Macquarie and Cochlear. I am passionate about leveraging AI and technical innovation to solve complex problems. Seeking opportunities to apply my technical expertise and leadership skills in a collaborative environment that drives meaningful impact.

Education

Bachelor of Engineering (Software), Honours, Diploma of Professional Engineering Practice

University of Technology Sydney (UTS)

March 2022 – November 2026 (Expected)

- Women in Engineering and IT Co-operative Scholarship recipient
- Completed global exchange program at Bath Spa University (September 2024 – January 2025)
- High Distinction Weighted Average Mark (WAM)

NSW Higher School Certificate

Pittwater House

January 2016 – December 2021

- School Prefect and House Captain, 2021
- Recipient of the Brighton College Ex-student Prize for Diligence, Initiative, Leadership, and Sportsmanship in College 12

Technical Skills

Languages Java, Python, JavaScript, ReactJS, Microsoft SQL, Terraform, TypeScript, .NET Maui, C#

Software Microsoft SQL Server, Maven, Apache, Visual Studio, Visual Studio Code, Git, Bitbucket, Confluence, Jira, Bamboo, AWS console, Snowflake, JetBrains Rider, Ms Office (Word, PowerPoint, Outlook, Excel, SharePoint),

Other Skills Continuous Integration and Continuous Deployment/Delivery (CI/CD) automation, experience implementing spring boot and OAuth/JWT

IT Experience

Software Engineering Internship

November 2025 – February 2026

Cochlear Limited

- Used .NET Maui to code customer facing applications connecting Cochlear customers to their devices
- Experienced coding against specific global requirements ensuring each company has their requirement met

Software Engineering Internship

January 2025 – July 2025

Macquarie Group

- Experienced working in market risk, updating and combining multiple legacy systems
- Developed micro front end components with a large focus on accessibility features
- Used Java to develop back end functionality and link them to front end

Software Engineering Internship

July 2023 – December 2023

Commonwealth Bank of Australia (CBA)

- Experienced working with the Model Experimentation team in the Advanced Data Capabilities crew to automate the process of deploying models.
- Created Terraform scripts that automated the process of deploying model objects such as tables, views, stages and more into Snowflake, an online database cloud.

Junior Software Engineer**March 2023 – June 2023****Australian Securities Exchange (ASX)**

- Continued creating and updating a GUI for internal systems in ReactJS using Visual Studio Code, Bamboo, Bitbucket, and Git
- Created multiple pages on the GUI and made many interactive features including download buttons, and colour coding the pages to correspond to the system related to the page

Software Engineering Internship**November 2022 – February 2023****Australian Securities Exchange (ASX)**

- Collaborated across multiple teams to develop diverse technical skills and deepen understanding of cross-functional operations, while strengthening communication abilities and learning how different departments align their varied approaches toward company-wide objectives
- Maintained updates on systems being upgraded at the time
- Created GUI for internal systems in ReactJS using Visual Studio Code, Bamboo, Bitbucket, and Git

Casual Employment

- Sales Assistant | Seed Heritage
- Waitress | Oceans, Narrabeen
- Team Member | Coles

January 2024 – July 2024

November 2022 – December 2023

December 2021 – March 2022

Extra-Curricular Activities / Volunteering**Mechsoc – Industry Relations and Sponsorships Executive****October 2024 – December 2025**

- Coordinate sponsorships and partnerships with engineering companies
- Help organise networking, technical, and social events for student engagement

The Big Lift – Participant, Crew Member and Operations Director**July 2022 – October 2024**

- Organised and contributed to 20+ volunteering events and over 200 hours across NSW, VIC, and QLD
- Led teams and logistics to support community-focused, pay-it-forward initiatives

College Union Program – Pittwater House**January 2020 – November 2021**

- Mentored junior students on academics, wellbeing, and school life.
- Planned and ran activities tailored to support different year groups.

Transferrable Skills

Organisation and time management skills – emphasised in my ability to manage multiple workloads from university, internship, work, university society, and my personal life. Further highlighted in my ability to prioritise and work across multiple projects at CBA. My organisation and time management skills allowed me to produce work of high standards in all the areas above.

Teamwork and communication skills – highlighted by my ability to work in a team at ASX, CBA and Macquarie as well as university group projects. Further demonstrated with my involvement in the organisation of multiple volunteering events with the Big Lift.
